THE BASSANO MAIL, THURSDAY, November 1, 1934.

VOLUME 24, No. 15

GEN NEWS

OREM, October 30.—The Masquerade Dance sponsored by the Junior U. P. A. last Friday night proved a success, both socially and financially. The Bassano High School Orchestra supplied excellent music. A good number of their fellow townsmen accompanied them to the dance, and there were also visitors from Coonville, Rosemary and Dulce. There were a number of good costumes which deserved some consideration. May we ask, what became of the prizes?

A Granger was seriously hurt on Tuesday morning when he was kicking the door by a horse. He went out to the barn to care for the horses and when he did not return to the house his family became alarmed. He was found unconscious and was immediately rushed to the Bassano Hospital.

Two exciting football games were played at the local diamond. The Gem High School girls defeated the girls from the Bassano High in a closely-contested, seven inning game, by a score of 5-7. The game between the boys of the two high schools was a hard-fought battle. The score at the beginning of the seventh inning was 5-0 in favor of Bassano. Gem managed to tie the score at 3-3 at the end of the seventh. In the first half of the eighth Gem scored two runs, but their opponents topped their efforts by scoring two, to leave the final score at 6-5 for Bassano.

After the game on Sunday Mrs. D. C. Offner served lunch for the Bassano girls, while the boys were entertained at the home of Mrs. Williamson and Callison.

Miss Gladys Portney is suffering from an attack of tonsillitis. Mrs. A. P. Miller returned home on Tuesday of this week after a three months' visit with relatives in Washington and Idaho.

The regular meeting of the Junior U. P. A. will be held in the school house at 8 p.m. on Saturday, November 3rd.

A number of Gem farmers, went to the Emerson bridge on Wednesday to drive back several hundred head of feeder sheep.

Among the Gem farmers who attended the meeting of the C. P. R. representatives and farmers' delegates from the Eastern Section, in Brooks on Tuesday were S. E. Selfridge, P. P. Clemens, J. Penner, Robt. Chamberlain, C. E. Marquess and D. Fortney.

A meeting of the senior U. P. A. will be held in the Gem school on Saturday, November 3, at 8:30 p.m. Members of the U. P. A. are highly engaged in putting up a cashed in which to store the coal that arrives frequently throughout the winter months. The building, known as "Millstone," which the Junior U. P. A. expects to present early in December.

Report of Gem High School Students, November 1, 1934.

Grade 9
Betty Williamson (7); Toni Peterson (48); Lawrence Schellmer (6); Merle Marquess, absent.

Grade 10
Mary Louise Stander (7); Irt Robson (7) 65.

Grade 11
Elsie Callison (3); Tom Callison (5); 69; Barbara Sparks (4); 68; Leona Leitchner (4); 65; Eliza Patch (7); 63; Jeanne Gumble (8); 60; Robert Williamson (7); 59; Leona Jahraus (4); 55; Alice Portney (5) 58.

HOSPITAL NEWS

A son was born to Mr. and Mrs. B. H. Herford on October 26th.

A son was born to Mr. and Mrs. J. Summerbell on Wednesday, October 31st.

A baby daughter was born to Mr. and Mrs. Carr on Tuesday, October 30th.

A son was born to Mr. and Mrs. Robertson, of Crowfoot, on October 30th.

HUSSAR NEWS

HUSSAR, October 30.—Messrs C. Thew and McInchick motored to Calgary on Tuesday evening, where they secured work.

John Elliott and Woodrow Elliott motored to Calgary on Wednesday, and John went on to Seattle to enlist with the U. S. Navy.

Mr. W. A. Treacy returned from Calgary on Tuesday evening with a new lodge. Mrs. F. L. Snyder returned from Calgary also on Tuesday evening to visit Mr. and Mrs. T. R. Reeves, returning to Calgary Saturday.

Mr. and Mrs. H. D. Brown and Mrs. Emerson motored to Calgary on Sunday, when Mrs. Emerson, who has been visiting her daughter, Mrs. Brown for the past three weeks, left for her home in Paris, Ontario.

Mr. and Mrs. R. A. Holland and Mr. and Mrs. McKelvey were summoned to Calgary on Thursday to meet Mrs. L. McKelvey and their grandson, Laverne, who had unfortunately fallen and had the handle of a stove shovelf thrust through neck and mouth. The child was taken to Bassano, operated upon by Dr. Scott, and brought to Hussar Saturday. He is getting on well.

Mr. Treacy and T. Bardett motored to Bassano on Thursday.

Bruce Bell and Mrs. T. R. Reeves were Bassano visitors on Thursday.

Mr. and Mrs. J. Dundas and Mrs. A. Andersen went to Bassano Thursday evening, and Mrs. Andersen remained in the hospital there.

Mr. and Mrs. M. Muir, of Chancelor, motored through Hussar on Sunday, and Graham went on to visit friends at Stibbald, and for a hunting trip.

Mrs. A. P. Miller returned home on Tuesday of this week after a three months' visit with relatives in Washington and Idaho.

The regular meeting of the Junior U. P. A. will be held in the school house at 8 p.m. on Saturday, November 3rd.

A number of Gem farmers, went to the Emerson bridge on Wednesday to drive back several hundred head of feeder sheep.

Among the Gem farmers who attended the meeting of the C. P. R. representatives and farmers' delegates from the Eastern Section, in Brooks on Tuesday were S. E. Selfridge, P. P. Clemens, J. Penner, Robt. Chamberlain, C. E. Marquess and D. Fortney.

A meeting of the senior U. P. A. will be held in the Gem school on Saturday, November 3, at 8:30 p.m. Members of the U. P. A. are highly engaged in putting up a cashed in which to store the coal that arrives frequently throughout the winter months. The building, known as "Millstone," which the Junior U. P. A. expects to present early in December.

Report of Gem High School Students, November 1, 1934.

Grade 9
Betty Williamson (7); Toni Peterson (48); Lawrence Schellmer (6); Merle Marquess, absent.

Grade 10
Mary Louise Stander (7); Irt Robson (7) 65.

Grade 11
Elsie Callison (3); Tom Callison (5); 69; Barbara Sparks (4); 68; Leona Leitchner (4); 65; Eliza Patch (7); 63; Jeanne Gumble (8); 60; Robert Williamson (7); 59; Leona Jahraus (4); 55; Alice Portney (5) 58.

MEMORIAL SERVICES SUNDAY, NOVEMBER 11

The annual joint Armistice Day service will be held in Knox Presbyterian Church on Sunday morning, November 11th, at 10:30 a.m. It was at first planned to hold the services in the Anglican Church, but the necessary absence of Rev. Mr. Thomas on the morning of that day caused these plans to be changed.

All choir singers are requested to occupy their seats.

The order of the service follows: 10:30 a.m. "Our God and Help";

Scripture reading—Rev. J. Hart;

Prayer;

"Gathered, Christian Soldiers";

Address—W. K. Webb;

Two minutes silence;

"Last Post"—Mr. W. J. Redmond;

"Lord of the Lands";

Benediction.

The Presbyterian Sunday School will meet fifteen minutes later than usual.

HALLOWE'EN HILARITY

Recruitment was life among the younger set last night. Through all corners garbed in diverse costumes and effectively masked, canvassed almost every street and dwelling in the town. General good-naturedness, and good-naturedness gave the funsters as much rope as they wanted.

The identities of several ghosts who caused a mild sensation here were justly earned in cleaning up in general on Thursday noon.

P. Meag was the butt of a practical joke when a carload of boys went out to the place while he was patrolling the town. Mr. Mead wishes to thank these boys for their thoughtfulness in not destroying any of his property. He also wishes to express the thanks of the town officials for the small amount of willful damage done to town property this year.

It was a display of poor sportsmanship to let all the small boys do all the cleaning up when high school boys did the greater part of the damage. Mr. Mead stated.

DOROTHY NEWS

DOROTHY, October 26.—Harvest operations are over in this district for the season.

The elevators are kept busy these days as many are hauling grain.

Mr. Roy Robson has been a patient in the Bassano Hospital for the past few days. All her friends are glad to see her home again.

Mr. and Mrs. Harold Thew spent the weekend with the latter's parents in Chancelor.

Fred Pugh gave a home warming last Monday evening. Everyone had an enjoyable time.

Mr. and Mrs. L. D. Cyr made a business trip to Calgary last week.

Twelve members of the Ladies' Aid gathered at the home of Mrs. W. R. Whitney on Thursday and carded enough wool for a comforter.

Rev. Deerpore, of Sarnywood, will hold services in Dorothy Church on November 4th.

Many farmers have been doing road work under the supervision of George Proudfoot.

O. N. Unnamaker, of Patricia, has been in this district purchasing horses.

Olga Hansen is assisting at the Robson home.

R. McKelvey was a business visitor in Calgary over the weekend. Mr. Hodson has been appointed enumerator for the district south of the river.

Elliot and Elliott have purchased a number of cattle in this district lately.

J. Wallace and L. B. Cyr have shipped a carload of sheep from Bassano.

Geese are plentiful in the district this fall, and many of them have been shot.

Be honest if you can, and if you can't be honest, pray for help.

ROSEMARY NEWS

ROSEMARY, November 1.—Mr. and Mrs. McLeod and family entertained Mrs. D. Brown and Mrs. B. Phelan to supper Saturday evening.

Miss Betty Adams and Miss Kathleen Hall spent the weekend in Calgary last week.

A number from here attended the dance at Gem last Friday evening.

Art Peterson made a business trip to Calgary last week.

Mrs. Wurster and family, of Latham, visited at the Pease house last Sunday.

Several carloads of coal have been unloaded at farms in this district recently.

An interesting meeting was held in the L. D. S. hall Monday evening, by Mrs. Schenitzky and Mrs. B. Dean.

These ladies are of the Nazareth Church and are making a missionary tour. Miss Schenitzky has been a missionary in Swaziland, Africa, for the past 27 years, and related her experiences in educating and converting the heathens of that dark continent.

Mr. and Mrs. Hildebrandt and family left immediately after their sale for Calgary and Vancouver.

Mr. Casford is building a service station north of Hilda's farm.

Mr. and Mrs. Reeves visited friends in the colony this week. Mrs. Reeves is a former school teacher here.

Mrs. J. McCall entertained Mr. and Mrs. Jack Kingston and family, Mr. and Mrs. Fred McInchick and Mr. and Mrs. Harry Akkrum to dinner on Sunday.

Mrs. Alf Narum and Bernice visited in Brooks on Wednesday night.

Miss Edna Kincaid returned home Saturday night after a week's visit with Mr. Casford Narum.

Miss Agatha Gellings is spending a few days in Brooks.

Mr. and Mrs. Andreacchi accompanied Mr. and Mrs. Rogers to the Lutheran Church Sunday to the baptism of Joyce Doreen Regier.

The community was greatly shocked by the sudden death of an old farmer, Henry Krasner.

Don't forget the bazaar and dance on November 9th.

MEMORIAL DAY IN CANADA

Memorial Day this year falls on Sunday, November 11th. Monday following will not be a statutory holiday.

In order to fittingly commemorate this anniversary of the day the World War ended, the Canadian Legion is planning a nationwide celebration on Sunday. Special services will be held in all churches throughout the length and breadth of Canada.

In cooperation with the Canadian Radio Commission, the Legion will broadcast a service in which all provincial commands will take part. The program is as yet a tentative one, subject to approval of individual divisions of the Legion.

Commencing at 9:00 p.m. Eastern Standard Time (7:00 p.m. Mountain Standard Time), the program opens with an announcement from Ottawa, speeches, bands solos and other features may be heard from Toronto, Halifax, Quebec, Vancouver, Calgary, Winnipeg, and Saskatoon. Included on the one-hour program will be Lt. Ron. R. B. Bennett, his Excellency, the Governor General of Canada and several other prominent speakers, if present plans carry.

LIBERALS MEET SATURDAY, NOV. 10

The organization meeting of the Liberals announced last week, will be held in Harvey Smith's office, Bassano, on Saturday, November 10, at 2 p.m.

Mr. Ross, and J. J. Bowen, M. L. A. of Calgary, will be present to address the meeting.

A large turn-out of Liberal supporters is anticipated.

LOCAL U.F.A. TO MEET

Bassano local of the U. F. A. will meet on Tuesday evening, November 13, in Letham.

Purpose of the meeting is to choose delegates for the convention to be held in Bassano Thursday, Nov. 8.

Remember the bassano-when it leaves the bunch it is killed.

FARMERS' MEETING TO SPEAK HERE WELL ATTENDED

The Gayley Theatre-Brooks, was packed to the doors Tuesday of this week, when more than three hundred farmers of the Eastern Irrigation District gathered there to discuss publicly the plan to take over the project from the C. P. R.

Mr. Charlesworth, head of the Reclamation Branch of the provincial government and an official of the Lethbridge Northern Irrigation District was the speaker. He took a neutral stand in the meeting and answered questions which were asked concerning the operation of an irrigation project. Many varied were the questions asked concerning the probable life of irrigated land, seepage trouble, the weed menace, and other major issues. Mr. Charlesworth answered each to the best of his ability and satisfied the audience on each point.

Tell White, Brooks, Carl Anderson, Scandia, and Wm. Sheldrake, Duchesne, were elected to the committee of three which will represent the project farmers at future meetings. The question of financing the project was raised and it was moved that one dollar be collected from every farmer at each future meeting. The question of giving the project to the U. F. A. was also discussed.

The meeting will be discussed. Mr. McCool, M. L. A. for Cochrane, will attend the meeting following business discussions.

In the evening, in the Orpheum Theatre at 8:00 p.m., Hon. R. G. Reid, premier of Alberta, will speak.

PREMIER R. G. REID

The Mail was in error when we reported that the date of the U. F. A. convention at Bassano was one day later than it actually is.

Next THURSDAY, NOVEMBER 8th, is the date of the meeting.

The meeting will come on order at 1 o'clock in the afternoon, and business matters will be discussed. Mr. McCool, M. L. A. for Cochrane, will attend the meeting following business discussions.

In the evening, in the Orpheum Theatre at 8:00 p.m., Hon. R. G. Reid, premier of Alberta, will speak.

COUNTNESS NEWS

COUNTNESS, October 30.—Eugene Jones left for the States by motor, where he expects to spend some time visiting.

Mr. E. R. H. Held, were visitors at the Gumble home Sunday.

Mr. and Mrs. D. D. Benjamin spent the weekend across the river with Mrs. Benjamin's parents.

Mrs. M. Ferguson was a caller at the Slus home Friday.

Miss McRoberts took in the dance at Gen Friday.

Leona Beringer went to Calgary on Saturday.

Fred and May Hildt were enthusiastic contributors at the masquerade in Gen Friday night.

A masquerade party was held at the Ferguson home Saturday evening in honor of Eugene Jones who is leaving Countness soon. Koneta Cowan won the prize for best costume. Loraine Parrott and Donald Walker won first prizes at the card table. Mrs. Parrott and Eugene Jones won the consolation.

Mr. and Mrs. B. G. Reeves, of Victoria, B. C., were visitors at the Gen Thompson home of first of last week.

Mr. and Mrs. W. Hawes have moved to the farm recently occupied by Mr. and Mrs. P. Sorenson.

The children of the Countness school spent a most enjoyable afternoon at the C. C. Clubhouse Friday, where Miss McRoberts put on a Halloween party for them. Pumpkins and funny faces were in evidence. There were games and, best of all, delicious refreshments were served.

Two carloads of coal were unloaded Monday by the farmers, who are getting ready for a cold snap.

Threshing is practically all finished in this district.

Miss Jean Gumble will have over the weekend.

Mr. E. R. Hildt will entertain the ladies of the C. C. Club at her home on Wednesday, November 7th. The meeting has been postponed for one week.

HIGH SCHOOL DANCE
Date: Friday, November 2nd.
Place: Masonic Community Hall, Bassano.

Time: 8:30 for cards; 11:00 for dancing.

Orchestra: Scarlet Strangers.

Features: Free luncheon, good food, general court.

Object: a good time.

SAT'DAY, THIS WEEK "TARZAN AND HIS MATE"

Johny Weismuller starring.

NEXT WEEK ANOTHER GOOD FEATURE ORPHEUM THEATRE

BOWLING

The Bassano Bowling League has started play in their American Five pin tournament and games will be drawn until each team has played each of the others.

Following is a list of teams which have already entered:

1. Mr. A. P. Thompson (capt.), Mr. Thompson, Mrs. N. Bassarab, Mr. N. Bassarab.

2. D. Macgregor (capt.), Jean Wallace, Annie Anderson, David Hart.

3. Mrs. Bacon (capt.), A. P. Pier, Gordon Fink, Frank King.

4. Marion Elmi (capt.), Grace Schellmer, Grace Sillis, Eliza Nobbs.

5. Alf Hansen (capt.), Mrs. Hansen, Annie Clark, Robt. MacGregor.

6. Mrs. L. Whitcomb (capt.), Louisa Whitcomb, Miss Grace Dunlop, Jess Simpson.

7. Irvin Young (capt.), Isabel Simpson, Howard Sanderson, Miss Sanderson.

8. Arthur Simpson (capt.), Miss B. White, N. E. Hinton, Mrs. Hinton.

9. Ival Warren (capt.), Boneta Johnson, Ken Downs, Fred Lenard.

10. Peter MacLean (capt.), Jean Davies, Kathryn MacLean, Robt. Taylor.

11. Allan Yule (capt.), Jessie Yule, Larry Edwards, Mrs. A. O. Scott.

12. Team no. 12 is captained by Miss McArthur, but the full quota of members has not been obtained.

This does not include all teams, as there are some yet to be formed. Any wishing to enter must do so this Saturday as Saturday is closing day for all entries.

Results of the first round as played to date:

MacGregor defeated Thompson, 3-0; Fink defeated Bacon, 3-0; Whitcomb defeated Hansen, 3-0; Young defeated Simpson, 3-0; MacLean defeated Warren, 3-0; Yule, not yet played McArthur.

Standing of Teams

Team	Pts.	G. P.
Bacon	21	6
MacGregor	21	6
Fink	15	3
Whitcomb	15	3
Young	15	3
Hansen	12	3
Warren	9	3
Thompson	6	3
Simpson	6	3
Yule	0	0
McArthur	0	0

U. F. A. CONVENTION DATE

Mark The Mail down for an error. We had the date of the U. F. A. convention as Nov. 9th. This was a day late.

The proper date is THURSDAY, NOV. 8. We put that in capital letters so all can see.

The premier of Alberta speaks here that evening so please get the date right in your minds and be out to hear him.

The convention proper will be in the afternoon.

CREDIT WHERE CREDIT IS DUE

The Mail has hitherto refrained from discussing editorially the problem of the eastern irrigation block and the plans being developed for the purpose of bettering the situation. This newspaper printed in its news columns much material concerning the proposed scheme, but it was not as a contribution towards what is considered a desirable cause.

We believe that the settlers who originated and outlined the proposal after years of struggling to find a way out are deserving of commendation. They fought through thick and thin when things looked hopeless. They put their farm organization to work. They travelled hither and thither on their own meagre funds.

They scratched their heads and thought out ways and means. They planned and figured. They wrote letters, interviewed people and worked indefatigably.

All credit to these men, particularly if they have found the right way out!

It's hard to stop a determined people who are well-led and who have their minds set on a proper idea and also who can work together.

A SMALLER WORLD

It's not much more than a quarter of a century since the novelist, Jules Verne, wrote "Around the World in Eighty Days." In the early part of the current century that was the acme of speedy transportation.

A few days ago a couple of young Englishmen flew from Britain to Melbourne, Australia, nearly 12,000 miles, in 71 hours! Jules Verne's fast traveller looks like a snail compared to Scott and Black.

Think of the interminable voyage Captain Cook made when he discovered Australia. And now a couple of daredevil young blades can mount into a mechanical eagle and skim across half the world in less than three days.

The world is growing smaller each passing day. The flying machines are making all nations close neighbors. They are now planning an aeroplane route from Winnipeg to Britain via the tip of Greenland and Ireland, with a schedule of 24 hours for the journey.

It isn't many years since Brown and Alcock flipped across the Atlantic. They were preceded by the gallant Hawker, who got over the ocean but had to be pulled out after dropping into the Irish Sea. Then came Lindbergh with his famous solo flight. Kingford-Smith performed the miracle of a Pacific flight from Australia to the U.S. via the Fijis.

Make no mistake, the world is soon going to be a small place. The march of science is making all nations near neighbors. This will be a splendid thing for all if the nations learn friendly and neighborly ways—and practise them.

A POLITICAL TEMPEST

Without political matters to enliven the tedium of day by day existence humanity would have an uninteresting life.

Hon. H. H. Stevens, the militant Vancouver M. P., is the current sensation to this wit-dwelling from the federal cabinet over the criticism of his actions in recent months. He has been going after the big store corporations and some of the industrial concerns, hot and heavy.

The premier said that the minister placed the government in an untenable position, that some of Mr. Stevens' accusations were not true and that party discipline had to be maintained.

So Mr. Stevens' resignation has been accepted and he is now on a fair way to become a popular hero. The incident has aroused a tremendous amount of interest and feeling throughout the Dominion.

STARS IN THEIR COURSES

There isn't room for stars in the great cities. But out on the prairies they come into their own.

How grandly splendid the constellations hang, patterning the indigo of the midnight sky with a luminosity!

The nearest cluster, astronomers say, lies at a distance of thirty thousand light years, yet there they are, seemingly to hand, glowing as they have glowed through the centuries.

It is said of Alair that its luminosity is nine times that of the sun, which blisters with its noonday fervor in summertime. Yet Alair is so infinitely far away that only its place is held as a brilliant gem amid the constellations.

Deneb sends out a gentle ray yet this star is at a distance of six hundred and fifty light years. Scientists say its power is ten thousand times greater than our sun.

The sky is full of these constellations, patterns traced in bewildering beauty. The human mind cannot comprehend their immense size nor the awful distances which separate them from our puny planet.

RESPONSIBILITIES AND OPPORTUNITIES

The accumulation of wealth in the hands of a comparatively few people is a condition that irritates the masses.

Why should the few live in plenty and luxury when very ordinary comforts and conveniences are denied the many?

That question has never been satisfactorily answered and doubtless it never will be. The wealthy are not anxious to present their case.

But they have an answer. Summed up it is that they are better, better-informed, more willing to assume leadership and take risks, and better fitted to efficiently manage large business enterprises.

The mass of the people have never been trained to take concerted action to assume responsibility and to manage efficiently, the preferred citizenry say.

So it would seem that if the mass of the people want to adopt the attributes of big business, and have sufficient will-power and desire to assume the conduct of big business and control of the major portion of the country's wealth.

PROBLEMS OF DOMINION MARKETING BOARD

(Agricultural and Industrial Progress in Canada)

The Dominion Marketing Board, which was established recently, has had many problems to deal with during its brief existence. Since the National Products Marketing Act is new legislation to most parts of Canada there is considerable uncertainty concerning its methods of operation. The nature and volume of correspondence suggests that the Board will be called upon to deal with a great variety of problems.

Two schemes, which had been prepared by interested groups prior to the establishing of the Board have been dealt with and approved. One of these provides for the regulation of the exportation of apples and pears the other deals with the marketing of British Columbia tree fruits. Both schemes appear to be operating with relatively little difficulty.

There is much interest concerning the procedure in submitting schemes and sometimes a little impatience at what appears to be delay in dealing with them. In that connection, says the Dominion Government Department of Agriculture, it should be noted that a scheme for the marketing of a product must be submitted by farmers or persons engaged in marketing. It is not the function of the Dominion Board to prepare schemes for the industry. Where a scheme has been prepared, it must be submitted to the Minister of Agriculture at Ottawa with a petition indicating the amount of support back of the proposal. If the Minister is satisfied that those making the submission represent adequately the producers of the person engaged in marketing, he will submit the scheme to the Marketing Board.

Schemes cannot be dealt with hastily. They require powers which are quite significant and have an impact on bearing on many people and many interests. When a scheme reaches the Dominion Marketing Board it is first examined to determine whether it is in proper order for consideration. This may require correspondence with those submitting the scheme, as frequently the provisions are not clear. The effect of the scheme on producers and consumers must then be considered. If the scheme is to deal with export trade, consideration of its effect on the importing country and its reception by competitors must also be given. The scheme is then light of international relations and trade agreements. The legality of the proposals included in the scheme and their relationship to other acts and regulations of the government must be studied. A number of hearings may be necessary in connection with a single scheme.

It is obvious that a good deal of investigation work must precede the approval of any scheme. The time and effort to this will depend on the nature of the proposal and the thoroughness with which preliminary work has been done by those submitting the scheme. It is not to be expected that a scheme will be approved after a matter of several weeks and possibly months.

The Board has a number of schemes dealing with a variety of products under consideration.

Those interested in the Marketing Bill may receive a copy on application to the Secretary, Dominion Marketing Board, Ottawa.

MUZZLING THE PRESS

WHAT MAKES A MAN POPULAR OR UNPOPULAR WITH OTHERS?

All of us know that there are certain people we avoid. For some we have a definite reason for avoiding them, and for others—well, we know we just don't like them and let it go at that.

We just happened to run across an old copy of the American Magazine, and in it a Mr. Harvey gives ten mighty good reasons to follow if you really want folks to leave you alone. Here they are, but don't you let them follow them if you want to be happy.

1. "Don't agree with you at all." Insist upon starting a discussion when the other fellow is just saying some thing to make conversation.

2. "I don't like your friend." Don't unmalicious and critical comment about a man's friend, or some member of his family. His wife or child will do it.

3. "Anybody could do that." Minimize other people's accomplishments, especially those they are proud of.

4. "I know better." Offer authoritative information on every topic that comes up. The more you know, the more you are to be disliked.

5. "I'll tell you exactly where you failed." Analyze your friend's mistakes when he is trying to forget them.

6. "As I was saying." Insist on dragging in your favorite topic among people interested in something else. If you can give it an air of being a subject that the group are too stupid or ignorant to follow, so much the better.

7. "I thought you were going to do what you said." Remind people of promises they made impulsively or carelessly. Don't follow up until you know they cannot keep.

8. "Let me show you how." Insist on holding the centre of the stage.

9. "I want to think the same way as a while back." Throw a wet blanket on other people's enthusiasm. If you can make it appear that their taste is antiquated they will appreciate it all the more.

10. "That is nothing but prejudice." The surest way to succeed with this is to stick on people's religious or patriotic sentiments.

There are many other ways to make people leave you alone, but the above would seem to be as effective as any we have heard of lately.

—Carbon Chronicle

MUZZLING THE PRESS

(The Drumheller News Review)

Action of Attorney-General Lynn Brown in closing court records to the press except on payment of searching fees, comes dangerously close to nullifying the one medium which is available for acquainting the public with matters of interest.

While we are not prone to preach too much about the sanctity of the press, its privileges and perquisites, we recognize the necessity for providing easy access to all documents of a public character. Any attempt to restrict a privilege to newspapers there can be no suspicion that government and courts have anything to conceal.

Mr. Lynn's arbitrary explanation, coming as it does shortly after newspapers have made liberal use of court documents in connection with the Broderick and Myer case, cannot be maintained at a high standard of efficiency and can clear off all obligations against them. The pool elevator systems consist of 1,566 elevator and pool terminals at the lake ports and the Pacific Coast, built and paid for by the farmers.

At the annual meeting of Manitoba Pool Elevators Limited at Winnipeg it was disclosed that, during the 1932 crop year Manitoba Pool Elevators, after taking care of all expenses, had a net operating surplus of \$361,045.22. This has been used to make full the liquidation of principal and interest on the provincial government of \$184,972.81, and arrears from 1932 operations of \$187,568.32 are also being paid, making a total payment to the province of \$372,541.13. The balance of approximately \$125,000 is being put to reserve account, and improves to that extent the liquid position of the organization. In addition to the above, a payment of approximately \$84,000 has also been made to the Saskatchewan and Alberta Pools on Terminal No. 1 at Port Arthur.

Recent shipments of Canadian horses to the British West Indies, for police use, have given complete satisfaction. This is said to be due to their arresting appearance.

"Ardenman gives views on golf course," runs a headline in a Mount real newspaper. Of the nineteenth hole, however, he did not treat.

A free trip to Australia will be given to the collegiate or high school student in Canada who writes the essay on Australia. A cautious person candidate wanted to know if the trip would be a homecoming.

Is There Merit Here?

The Alberta Pool Elevator system has enjoyed a high reputation among grain growers of the province and the organization is making every effort to justify the confidence bestowed on it. Its aim is to give courteous, efficient and equitable treatment to all patrons.

Grain growers will find the Alberta Pool Agent anxious to obtain and merit your business.

WHEAT POOLS PROGRESS

For the third year in succession the wheat pools of Manitoba, Saskatchewan and Alberta have met their obligations to their provincial governments.

In 1932 the pools paid their members twenty-two million dollars more than the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. Capital and interest due this year on the 1929 crop payment have been paid in full after making ample provision for depreciation on elevators and setting aside a substantial sum for work on the grain brought, thereby actually adding this dollar to being paid out of the earnings of the pool elevator system. EDDIE, THE AD MAN

ONCE A MERCHANT'S HEALTH
BROKE DOWN FROM OVER-
WORK, HIS DOCTOR TOLD
HIM HE MUST HAVE QUINY AND
RHEUMATISM, BUT EDDIE
SAID HE'D TRY QUINY AND
RHEUMATISM AND PRETTY SOON HE
WAS THE QUINY AND RHEUMATISM
IN TOWN.

Ten Minutes - with the Scott Philosopher

The writer recently met a gentle-
man who had just come through the
dry belt of Saskatchewan and eastern
Alberta, and the scenes of privation
and hopeless misery he witnessed
there made him exceedingly sad.

Over a wide stretch of country he
saw countless numbers of horses and
cattle of various stages of starvation,
but the worst feature of all was the
plight of the people. Compelled to
live on the meagre sums allotted them
from the public treasury, they carry
on from day to day arrayed in ragged
garments and as gaunt and forsaken
in appearance as the weary flocks that
aimlessly wander in that barren
waste.

Yet, not long ago an eastern finan-
cial mogul protested the removal of
these people to other more favored
districts on the grounds that this
course would prejudice certain inter-
ests.

Surely some men have a peculiar
taste of demonstrating their sym-
pathy for unfortunate fellow crea-
tures.

A well-known Englishman is re-
sponsible for the statement that many
of his countrymen are looking forward
to the day when England will be un-
der the dictatorship of "Lawrence
Arabia," now known as "Airman
Shaw."

Perhaps the picture is overdrawn,
but if Lawrence has aspirations to
lead these lines, plenty of support will
be forthcoming from Britanians in
every walk of life, for not in the memory
of man has a human being so appeal-
ed to others as this modern Bayard,
whose brilliant services in the cause
of others were rendered futile by the
demands of international politics.
Possessed of rare courage and fort-
itude as well as a genuine love for
the underdog, Lawrence would not be
the least of that long line of patriotic
Britanians who, according to the pic-
ture given them, served their bene-
ficial land in a humble and grateful
spirit.

Wasn't it Shakespeare who wrote
something like this: "There cometh
a time in the affairs of man which,
taken at the flood, leads to fortune."
Well, tell you how we run on the
rocks.

Long years ago we looked on the
place known today as Bassano.
At that time it was a rather forlorn
looking dump, consisting of a few
unpainted shacks where a wholly
unprofitable and unattractive real estate
man tried in vain to show us some-
thing of its future greatness. Now it
is an up-to-date cosmopolitan burg,
with modern improvements such as
hotels, clubs, cup, service stations and
cafes where coffee and pie can be had
at all hours (that is to say if a fellow
possesses the necessary ready).

Here we are, far removed from the
soup and Rootegale salads, and thor-
oughly convinced that a guy never
likes anything worthwhile, until it
is nearly time to pass in his check.

An American friend with whom we
discussed the amazing flight of the
victors in the great air race to Aus-
tralia, told us this story of royal moth-
er who may not have heard be-
fore. A negro soldier who was tear-
ing down a French lane in a very
rapid manner, was brought to a halt
by an officer who demanded the rea-
son for his haste.

"Is a rumal' away from the big
cock shell in the German air, sah?"
was the answer.

"But what do you know if it was
the biggest shell the Germans had?" queried
the officer.

And Stumbo replied in this manner:
"Because I need it when it pained me.
Then I need it again when I pained it,
sah."

The quality of the best Canadian
cheese has reached a very high stan-
dard and is reflected in the reputation
and preference for Canadian cheese
on the world's markets. In 1923 the
quality of Canadian cheese, with 54.87
per cent fat grade, was the best it
ever has been since grading began in
1922. The 1923 quality represents an
increase of over one per cent com-
pared with 1922, and almost 17 per
cent compared with the first year of
grading when there was 75 per cent
first grade. This improvement in
quality was not confined to any one
province, but was general in all the
provinces. While cheese for export
from Canada must be graded, many
sales between buyers and sellers in
Canada are transacted on the basis
of grade as determined by the official
grades of the Canadian Department
of Agriculture.

Farmers' Forum

A NEW STRAIN OF DWARF
SWEET CLOVER

It is only within the last twenty
years that sweet clover has become
an important crop in Western Can-
ada. A number of varieties are in ex-
istence, each of which is characterized
by one or more special features. In
fact, many of them are uniform in
all features. It is this lack of uni-
formity coupled with other unde-
sirable features that makes the prop-
agation of improved varieties imperative.
Sweet clover is an open pollinated
plant and its improvement in the
hands of the plant breeder is of nec-
essary slow. Only a few varieties
suitable to prairie conditions have
been developed. Conditions differ so
greatly in the various districts of the
West that a strain suited to one re-
gion may be wholly unsuited to an-
other. This means that more atten-
tion must be given to the develop-
ment of regional strains.

With sweet clover there is consid-
erable variation in height of plant,
thickness of stem, number of stems
per foot of crown, time of flower-
ing, time of seed ripening, and the
uniformity of seed ripening. In gen-
eral the tall varieties have relatively
few stems arising from the crown and
these stems tend to be fairly coarse.
In contrast, the low varieties have
many stems arising from the crown
and the plants are usually more
leafy. It is this variation in type
that makes it possible for the plant
breeder to produce improved strains.

A dwarf strain of white clover has
been developed at Brandon. While it
has somewhat the appearance of
Alfalfa, the new dwarf variety from
the University of Saskatchewan, it
differs from Alfalfa in being a little
more dwarf, more compact, having
fewer leaves and bearing less seed
to the ground level. It is also a
little later in beginning growth in
spring. During the past year it
has been tested at a number of points
in Manitoba, and from these tests it
would appear to be too dwarf for the
drier districts in districts where
moisture is plentiful, the strain made
a very good showing.

SHEEP FOR EXTRA INCOME

There are few farms on the prairie
where sheep with reasonable atten-
tion would not prove a definite asset
to the farm income. Particularly in
the drier farming areas, farmers are
in need of such side lines to provide
extra returns most urgently needed in
unfavorable crop years. Some ad-
ditional fencing is required but a
few sheep may be pastured in small fields
between the buildings until the profits
will pay for more fencing. Sheep
will adapt themselves to an
open shed in winter. They utilize low
grade roughage in winter and from
May to June of which they are the
head daily will keep them in good
condition. In summer they eat much
of the common weeds and if neces-
sary, can live on shorter pasture than
most other kinds of livestock.

Each lamb is usually worth more
on the market in the fall than its
mother and it is not unusual to get
sixty-five number of twins to average
15 pounds for each in ewes. In addition
to the sale of lambs, the wool clip
will pay a good portion of the feed
required. The wool clip at the Dom-
inion Experimental Station, Scott, for
1934 averaged nine pounds from
Shropshire and 13 1/2 pounds from
Hampshires. The wool was shipped to
the Co-Operative Wool Growers
and has not been sold (September 10)
but when desired a cash advance may
be obtained at the time of shipment.

The April lambs were sorted in Aug-
ust and the larger individuals were
sold at \$4.10 per hundred after freight
was deducted, which was more than
the price of good cattle at the time.
An important consideration in
regard to the returns from sheep is
that the wool returns are available
in June when cash is often scarce on
the farm, and the early lambs may be
sold before harvest when money is
needed for the purchase of wheat.

Grade ewes are quite satisfactory
for the production of market lambs
and by use of a purebred ram another
line of breeding a larger lamb is ob-
tained than results from straight
breeding. This has been confirmed at
the Scott Station as well as the fact
that such crossbred lambs are not
always satisfactory for breeding pur-
poses, but should be sold on the mar-
ket and the original ewes retained as
long as their teeth and lambing re-
cords are satisfactory, after which they
may be sold for auction, and other
young ewes purchased.

WILL WORLD WHEAT EXCESS SURPLUSES BE ELIMINATED?

The smallest wheat crop in the
past ten years, according to Bureau
estimates for 1934 by the Food In-
vestments Bureau of Stanford Uni-
versity. The total will be between
500 and 600 million bushels, but the
moderate sized crop of 1932. Even
with this development the Bureau is
doubtful that the surplus world
carryover will be eliminated but sug-
gests that it will be cut in half. Nor-
mal world carryover is figured at
around 600 million bushels of wheat in
all positions. Total stocks of wheat
on August 1st this year reached the
record breaking figure of a billion
five hundred and fifty million. If the
forecasts of the Bureau are carried
out by events total world stocks on
August 1st of next year will be around
875 million bushels or 275 million a-
bove the normal figure. The normal
figure (600 million bushels) is the
average over the years from 1923 to
1927.

The prospective volume of inter-
national world trade in wheat dur-
ing 1934 is given at about 400 mil-
lion bushels which is the figure ar-
rived at by the International Wheat
Commission. Mr. Bromfield's estimate
for somewhat lower, namely 375
million bushels. The Bureau says
"On the whole we regard the forecast
by the Wheat Advisory Committee
and Bromfield's estimate as accurate
depending in part on the velocity of
recovery in Europe but a little low
unless estimates of 1934 European
crops are subsequently revised up-
ward."

"But no forecast formulated at this
date can be more than a rough ap-
proximation. Too little is known as
to the exact state of European crops,
the probable level of wheat consump-
tion and how they will be affected by
short crops of rye and feed grains,
the direction and magnitude of changes
in wheat stocks, and the extent to
which some countries' wheat imports
needed to maintain consumption can
or will be financed on a long-term
government control of foreign ex-
change."

The Bureau suggests that it is still
too early to estimate crops in the
Southern Hemisphere. Seeding and
early growing weather was particu-
larly unfavorable in Australia in July
drought adversely affected the crop
there. Rains brought some improve-
ment but the Australian crop will
probably fall between 110 and 150
million bushels, which will bring it to
around 120, while a reasonable ex-
pectation of Argentina's crop is around
240 million bushels.

While Canada is finding new mark-
ets for dried milk products, Canada is
making a bid to increase her exports
in this line. A large factory with an
annual capacity of 5,000 tons of dried
milk has been set up at Valparaiso,
the Trans-Siberian railway in a
district in the straits famous before
the war for its dairy cows and but-
ter.

Although the mineral content of
honey is very small, it is worth not-
ing, says the Dominion Apiculturist,
that such elements as lime and iron, ne-
cessary to the well-being of the hu-
man body, are present.

The yellow meal worm is a pest
that is easily dealt with in winter
time in Canada. With the moth or
four placed outside in a rat-proof
trap, zero temperature will kill
all the pests in a night. If the tem-
perature does not go below 20 degrees
Fahrenheit, it is better, says the Do-
minion Entomologist, to leave the
food out two days.

The month of October sees the end
of harvest in the northern hemi-
sphere (Northern China, Alaska,
Northern Russia, Sweden, Finland,
and Norway) and the beginning of
harvest in the southern hemisphere.
November is the harvest month of
Peru and South Africa; December
that of Burma and Argentina, the
harvest of the latter being carried on
throughout almost the entire month.
The harvest month of Uruguay, Chile
and Australia.

Commercial canning is one of the
oldest of the larger organized indus-
tries. In 1809, in France, Nicolas
Appert found that food put in airtight
containers required to be sterilized.
An Englishman invented the tin can,
and North America practically made
canning the great industry it is today.

**Bright Stories
about Wine**

"In the sunset land where our gods,
Have wine to drink, Amos 9:13-14 MARQUESS

● This is the first of a series of articles which will tell you a lot
about wine, if you are patient enough to read them. It is a great
story and has in the past, either as a theme or a stimulant
inspired some noble bards, and if we translate the grape into
barley, some notable Scots reviewers. The culture of the vine
is almost as ancient an occupation, and not less honorable
one, than the growing of wheat. In some countries it has
become as great an industry.

● In Ontario, the Niagara district, famed for its fruits, has
won increasing renown for the quality of its grapes and the
wine that has been pressed from them. The story of Niagara
wine is part of the lore of Canada. It may be in time that in
other parts of the Dominion there will be developed local
wineries for the needs of the people. For it would be ex-
plained that wherever the grape can be grown, its noblest
purpose can be to some extent fulfilled.

● We do not suggest that one may look forward with any
reasonable hope to the time when there will be a Saskatchewan
Chateau Lafite or an Alberta Tokay. But there will continue
to be produced in Old Ontario a variety of wines that ought to
suit the palate of all Canadians, just as our climate suits them
ought to suit them, it being the fact that we can expect, and
perhaps as good as we deserve. Native-born Canadians know
far less about native Canadian wines than do Canadians of
foreign birth about the wines in the land of their origin. It will
be one of our purposes to enlighten them, and we do not
doubt, surprise them as we proceed.

● Perhaps you noticed the other day that, when Queen Mary
launched her gigantic namesake from the Clyde docks, she
christened it with a bottle of Australian wine. We may say
that it was through no spirit of ingratulation that we refrained
from sending her a bottle of Canadian wine for the purpose.
In fact, we stand ready to provide Canadian wine for all such
ceremonies in the future.

● The point worth noting is that, in this conspicuous way,
royalty called attention to the fact that, in the British
Commonwealth of Nations, there is produced wine fit for
celebrating the launching of the greatest of ships, and wine
fit for its obviously fit for lesser occasions. That not only
the wines of Australia, and particularly the wines of South
Australia which is the chief wine-producing state of the
Antipodes, but the wines generally of the Empire were
strikingly called to the attention of the world.

● The time has passed when only the wines of France and
Portugal and Spain and Italy were meet for royal recognition.
There are Empire wines from South Africa and Australia and
Canada which are gradually finding markets in many parts
of the world. Those who know them at their best find that they
fulfill all requirements of much more expensive wines. It is true
the Australian wine differs from the French wine as much as
the kangaroo differs from the Gallic cock. But who is to say
it is inferior?

LOCAL NOTES

Mrs. Wyn. McLewis was in Calgary over the week-end.

Mrs. Mead's mother from B. C. is visiting with her.

W. S. Playfair, motored over to Newton for a visit with friends there.

Fred Gervais, of Cluny, was a house-caller in Bassano on Friday.

Mrs. W. R. Whitman, of Darhous, was in Bassano on Friday.

Miss Grace Schoer spent the week-end at her home near Strathmore.

Miss E. McArthur returned from her holidays in the north on Tuesday.

C. C. Jorgensen, of Makepeace, was in town on Tuesday.

R. G. Mould, of Calgary, was in Bassano on Monday on his way to hunt in the Bonanza district.

Mrs. Ben. S. Plummer and Mr. and Mrs. H. Jones were present at the meeting in Brooks on Tuesday.

Mrs. W. S. Playfair, Florence and Chris were week-end visitors in Calgary.

D. W. McDerby, Calgary, paid a few business calls in this district last Friday.

Mr. and Mrs. J. M. Wheatley, of Chancellor, were in Bassano Tuesday, on their way to the Contract Holders' Meeting at Brooks.

Rev. J. Burton Thomas, newly appointed to the Bassano-Brooks parish, will conduct services in Bassano next Sunday, November 4th, at 7:30 p.m.

Mr. and Mrs. H. G. Angell and family motored to Calgary last Saturday. Gordon Fink, Bob Moore and Ted Gammon motored to the city for the week-end.

The Ladies' Aid of the Anglican Church will hold their Annual Tea and Sale of Fancy Work and candy at Currie & Minny's store on Saturday, November 3rd, from 3 to 6 p.m.

J. E. Morrison, section foreman of Bassano, was first prize in the Medicine Hat division for his garden. Each year the C. P. R. conducts a widespread garden competition among its employees, under the direction of J. E. Almey, horticulturist. Mr. Morrison won the prize for having the best old garden visible from the railway tracks.

Lake Newell has been closed to net fishing, according to The Brooks Bulletin. This is to protect the Whitefish which are multiplying in that Lake. Whitefish spawn were planted in Lake Newell some five years ago.

Wallace J. Smith, former publisher of The Mail, writes that he is locating in Oliver, B. C., where he will publish a newspaper. Oliver is in the Okanagan Valley, a considerable distance south of Vernon. It is an irrigated district specializing in fruit and vegetable growing, also milking.

H. W. Ford submitted a proposal at the session of the Alberta Taxation Inquiry Board held last week in Calgary whereby 74 townships between the Red Deer River and the Bow River should be amalgamated into one municipal district with Bassano its centre. Mr. Ford enumerated the advantages of such a system and gave the reasons why Bassano would be the logical centre of such an area.

ADDITIONAL HOSPITAL NOTES

F. Prangell underwent a major operation on Wednesday and is doing well.

D. Murphy, of Scandia, is a patient in the Bassano Hospital.

Mrs. Muir, of Chancellor, is a patient in the local hospital.

A. Grainger, of Gern, is recovering from partial injuries received when he was kicked in the face by a horse.

GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA
